

A Digitally Empowered Patient Is An Informed Patient

DIGITALLY EMPOWERED™

Only 12 percent of adults have a proficient level of health literacy.¹ One of the biggest hurdles to learning about health and healthcare decisions is the ability to access and use technology.

We developed the Digitally Empowered™ program to help cancer patients become more tech-savvy. Through a series of easy-to-follow video modules, coupled with resource guides, we are educating patients on technology and online support tools. Course objectives include:

How to Access the Internet

Identifying Credible Resources and Websites

The Benefits of Your Patient Portal

Using Social Media to Connect and Learn

Navigating Your Health With Mobile Devices

Apps for Convenience and Fun

How to Use Telemedicine

Accessing and Joining Online Support Communities

WHO WE ARE

Patient Empowerment Network (PEN) is a 501(c)(3) nonprofit organization. PEN's mission is to fortify cancer patients and care partners with the knowledge and tools to boost their confidence, put them in control of their healthcare journey, and assist them in receiving the best, most personalized care available to ensure they have the best possible outcome.
