AGENDA HIGHLIGHTS

Senior leaders from Pfizer will present:

- The vision for delivering innovations in oncology and commitment to addressing health care disparities
- Pfizer's heritage and research initiatives in hematologic malignancies with a focus on addressing unmet needs for patients with multiple myeloma through transformative science
- The complexity of multiple myeloma treatment and ongoing advancements in the treatment landscape

This meeting is organized and funded by Pfizer.

Not an official event of the 64th ASH Annual Meeting and Exposition. This presentation is not sponsored or endorsed by ASH. Not CME-accredited.
